Attachment Number 21

Inspector General's Recommendation Number 21, Page 88

Recommended DCI Action: Approve

Inspector General's Statement

Recommended that:

The Deputy Director (Plans) appoint a small task force of experienced DD/P and DD/S personnel to investigate small station administrative problems and make recommendations for reduction of their administrative workload to an absolute minimum.

DD/P Comment

Concur.

This problem has received close and continuing attention for many years. A current survey is now being conducted by the Office of the SSA/DDS, with the assistance of DD/P representatives, at Headquarters. The report of survey will undertake to identify the progress which has already been made in reducing this workload and to indicate those specific areas where further reduction of this burden may be possible and desirable.
